I am a Frontend Developer with 4 years of professional experience. Originally from Azerbaijan, I lived in Ukraine for 12 years before relocating to the Netherlands in 2022. I am committed to mastering Dutch to better integrate and contribute to my future company.

I am goal-oriented, quick to learn, and a strong team player. With my experience in web development, I am confident in bringing value to any project through expertise and dedication. I am seeking an opportunity as a Frontend Developer while expanding my skill set in backend, cloud technologies, and data engineering. Open to junior-level roles that support my growth into a well-rounded software engineer.
